

Complete Line of Scales for Water and Wastewater Treatment and Industrial Applications

**SCALETRON SETS THE STANDARD IN CORROSION RESISTANCE**

# 150lb. Cylinder Scales

## Model 2305™

Digital Single Cylinder Eco-Scale

Electronic scale with a 4-20mA output, NEMA 4X indicator box and steel base with PVC deck. Optional battery. Capacity 365 lbs.

### Indicators

#### Standard

3 1/2 Digit

#### Size of Container

Up to 10 1/2" dia.

#### On & Off Loading

Frequent

## Model 2310™

Digital Single Cylinder Scale

Electronic scale with a 4-20mA output, NEMA 4X indicator box and solid PVC base. Capacity 349 lbs.

### Indicators

#### Standard

3 1/2 Digit

#### Optional

- 1099

#### Size of Container

Up to 12" dia.

#### On & Off Loading

Frequent

## Model 2330™

Mechanical Dual Cylinder Scale

Features integral mechanical indicator with a dual dial and molded fiberglass reinforced thermoplastic base. Capacity 300 lbs.

### Indicators

#### Standard

Mechanical Dial

#### Size of Container

Up to 12" dia.

#### On & Off Loading

Frequent

## Model 2350™

Digital Dual Cylinder Scale

Electronic scale with a 4-20mA output, NEMA 4X indicator box and molded fiberglass reinforced thermoplastic base. Capacity 349 lbs. per disk

### Indicators

#### Standard

Dual 3 1/2 Digit

#### Optional

- 1020
- 1099

#### Size of Container

Up to 12" dia.

#### On & Off Loading

Frequent

## Model 2003™ - 2006™

Multi-Cylinder Platform Scale

Electronic scale with a 4-20mA output, NEMA 4X indicator and steel base with PVC deck. Sizes 12" & 24" x 3', 4', 5' or 6' Capacity 2500 lbs. \*

### Indicators

#### Standard

3 1/2 Digit

#### Optional

- 4 1/2 Digit
- 1020
- 1099

#### Size of Container

Up to 12" dia.

#### On & Off Loading

Frequent

## Model 2352™ - 2353™

Digital Multi-Cylinder Scale

Electronic scale with a 4-20mA output, NEMA 4X indicator box and molded fiberglass reinforced thermoplastic base. Capacity 349 lbs. per disk

### Indicators

#### Standard

Dual 3 1/2 Digit

#### Optional

- 1099

#### Size of Container

Up to 12" dia.

#### On & Off Loading

Frequent

## Model 2308CS™

Portable Cylinder Scale w/ Cart

Portable electronic scale with a 4-20mA output, NEMA 4X indicator box and coated steel hand cart. Optional battery. Capacity to 349 lbs.

### Indicators

#### Standard

3 1/2 Digit

#### Size of Container

Up to 9" dia.

#### On & Off Loading

Frequent

\* Other scale sizes and capacities upon request.

# Ton Cylinder & Gas Cabinet Scales

## Model 3001™ - 3006™

Ton Cylinder Scale

Electronic scale with a 4-20mA output, NEMA 4X indicator box, solid UHMW rollers, stainless steel hardware and load cell. Capacity 4000 lbs. per base

### Indicators

#### Standard

4 1/2 Digit

#### Optional

- 1020
- 1099

Size of Container

Up to 36" dia.

On & Off Loading

Frequent

## Model 3050™

Ton Cylinder Conversion Kit

Converts old hydraulic scale to modern electronic scale. Features a 4-20mA output, stainless steel load cell and polyester coated metal base.

### Indicators

#### Standard

4 1/2 Digit

#### Optional

- 1020
- 1099

Size of Container

Up to 36" dia.

On & Off Loading

Frequent

## Model 3000 LB™

Ton Cylinder Lifting Bar

- Made of 5" channel
- Heavy duty hooks
- Two styles available

## Model 3000 ST™

Ton Cylinder Storage Trunnions

- Solid UHMW rollers
- Stainless steel axles
- Polyester coated steel base

## Model 3000 TW™

Ton Cylinder Wrench

- Constructed of 1/2" flat bar
- 24" or 48" long by 1" square tube handle

## Model 2308™

Gas Cabinet Scale

Electronic scale with a 4-20mA output, NEMA 4X indicator and stainless steel base. Size 9"x 9" Capacity to 349 lbs.

### Indicators

#### Standard

3 1/2 Digit

Size of Container

Up to 9" dia.

On & Off Loading

Frequent

## Model 4000SS™

Gas Cabinet & Dewar Scale

Electronic scale with a 4-20mA output, NEMA 4X indicator and stainless steel base. Sizes 15"x15", 24"x24", 30"x30" Capacity to 349 lbs. \*

### Indicators

#### Standard

3 1/2 Digit

#### Optional

- 4 1/2 Digit
- 1020
- 1099

Size of Container

Up to 30" dia.

On & Off Loading

Frequent

## Scale Indicators Available

3 1/2 Digit

Dual 3 1/2 Digit

4 1/2 Digit

1020

1099 Process Controller

# Drum, Tank, & Platform Scales

## Model 4010™

Digital Tank Scale

Scale for permanently mounted tank/drum. Dry powder polyester coated steel. PVC deck. Sizes 24", 30", 36", 48", 60", 72" Capacity to 5000 lbs. \* □

### Indicators

#### Standard

3 1/2 Digit

#### Optional

- 4 1/2 Digit
- 1020
- 1099

#### Size of Container

Up to 48" dia.

#### On & Off Loading

Stationary Centered

## Model 4020™

Digital Drum & Cylinder Scale

Economical electronic scale for permanently mounted tank. Solid PVC base. Sizes 12" & 16" disks Capacity to 800 lbs.

### Indicators

#### Standard

3 1/2 Digit

#### Optional

- 4 1/2 Digit
- 1020
- 1099

#### Size of Container

Up to 16" dia.

#### On & Off Loading

Stationary Off-Center

## Model 4021™

Ultra-Low Profile Drum Scale

Electronic scale with rugged dry powder polyester coated steel frame and PVC deck. Sizes 18" x 20" & 24" x 27" Capacity to 1500 lbs. □

### Indicators

#### Standard

3 1/2 Digit

#### Optional

- 4 1/2 Digit
- 1020
- 1099

#### Size of Container

10" to 26" dia.

#### On & Off Loading

Frequent Centered

## Model 4030™

Digital Tank Scale

Electronic scale with rugged dry powder polyester coated steel frame and PVC deck. Sizes 24", 30", 36", 48", 60", 72" Capacity to 5000 lbs. \* □

### Indicators

#### Standard

3 1/2 Digit

#### Optional

- 4 1/2 Digit
- 1020
- 1099

#### Size of Container

Up to 48" dia.

#### On & Off Loading

Stationary Off-Center

## Model 4040™

Digital Tank Scale

Electronic scale with rugged dry powder polyester coated steel frame and PVC deck. Sizes 24", 30", 36", 48", 60", 72" Capacity to 5000 lbs. \* □

### Indicators

#### Standard

3 1/2 Digit

#### Optional

- 4 1/2 Digit
- 1020
- 1099

#### Size of Container

Up to 48" dia.

#### On & Off Loading

Frequent Off-Center

## Model 4040 IBC™

Tote Bin Scale

Electronic scale designed for intermediate bulk containers. Solid PVC deck. Sizes 24", 30", 36", 48", 60", 72" Capacity to 5000 lbs. \* □

### Indicators

#### Standard

3 1/2 Digit

#### Optional

- 4 1/2 Digit
- 1020
- 1099

#### Size of Container

Up to 48" x 48"

#### On & Off Loading

Frequent Off-Center

## Model 4041™

Ultra-Low Profile Platform Scale

Electronic scale with rugged dry powder polyester coated steel frame and PVC deck. Sizes 24" x 24" & 30" x 30" Capacity to 1500 lbs. □

### Indicators

#### Standard

3 1/2 Digit

#### Optional

- 4 1/2 Digit
- 1020
- 1099

#### Size of Container

Up to 30" dia.

#### On & Off Loading

Frequent Off-Center

\* Other scale sizes and capacities upon request.

□ Available with stainless steel base upon request.

# Secondary Spill Containment Scales

## Model 4042-26™

Spill Containment Scale

Electronic scale with spill containment basin. Dry powder polyester coated steel frame. Size 26" x 26" Capacity to 2000 lbs. (11 gal.)

### Indicators

#### Standard

3 1/2 Digit

#### Optional

- 4 1/2 Digit
- 1020
- 1099

Size of Container

Up to 24" dia.

On & Off Loading

Frequent Off-Center

## Model 4042-26WB™

Spill Containment Scale w/ Bladder

Scale with spill containment basin and bladder. Dry powder polyester coated steel frame. Sizes 26"x 26" & 26"x 52" Capacity to 2000 lbs. (77 gal.)

### Indicators

#### Standard

3 1/2 Digit

#### Optional

- 4 1/2 Digit
- 1020
- 1099

Size of Container

Up to 24" dia.

On & Off Loading

Frequent Off Center

## Model 4042-26x52™

Spill Containment Scale

Electronic scale with spill containment basin. Dry powder polyester coated steel frame. Size 26"x 52" Capacity to 8000 lbs. (30 gal.)

### Indicators

#### Standard

3 1/2 Digit

#### Optional

- 4 1/2 Digit
- 1020
- 1099

Size of Container

Up to 24" dia.

On & Off Loading

Frequent Off-Center

## Model 4042WB-26x52™

Spill Containment Scale w/ Bladder

Scale with spill containment basin and bladder. Dry powder polyester coated steel frame. Size 26"x 52" Capacity to 8000 lbs. (88 gal.)

### Indicators

#### Standard

3 1/2 Digit

#### Optional

- 4 1/2 Digit
- 1020
- 1099

Size of Container

Up to 24" dia.

On & Off Loading

Frequent Off-Center

## Model 4042-52™

Spill Containment Scale

Electronic scale with spill containment basin. Dry powder polyester coated steel frame. Size 52"x 52" Capacity to 8000 lbs. (62 gal.)

### Indicators

#### Standard

3 1/2 Digit

#### Optional

- 4 1/2 Digit
- 1020
- 1099

Size of Container

Up to 50" dia.

On & Off Loading

Frequent Off-Center

## Model 4042-63 IBC™

Spill Containment Scale

Electronic scale with spill containment basin. Dry powder polyester coated steel frame. Size 63"x 63" Capacity to 8000 lbs. (360 gal.)

### Indicators

#### Standard

3 1/2 Digit

#### Optional

- 4 1/2 Digit
- 1020
- 1099

Size of Container

Up to 61" dia.

On & Off Loading

Frequent Off-Center

## Model 4042-63 IBC-WE™

Spill Containment Scale w/ Hut

Electronic scale with spill containment basin and weatherproof enclosure. Size 63"x 63" Capacity to 8000 lbs. (360 gal.)

### Indicators

#### Standard

3 1/2 Digit

#### Optional

- 4 1/2 Digit
- 1020
- 1099

Size of Container

Up to 61" dia.

On & Off Loading

Frequent Off-Center

## Optional Equipment

- Replacement Bladders
- Spill Alarms
- Ramps
- Seismic Straps

## New Scales & Accessories

### Model 4042ECO-26™

Spill Containment Scale

Economical scale with spill containment basin. Dry powder coated steel frame. Size 26" x 24"  
Capacity to 2000 lbs. (15 gal.)

#### Indicators

##### Standard

3 1/2 Digit

##### Optional

- 4 1/2 Digit
- 1020
- 1099

##### Size of Container

Up to 24" dia.

##### On & Off Loading

Frequent Centered

### Model 4042ECO-WB-26™

Spill Containment Scale w/Bladder

Economical scale with spill containment basin and bladder. Dry powder coated steel frame. Size 26" x 24"  
Capacity to 2000 lbs. (66 gal.)

#### Indicators

##### Standard

3 1/2 Digit

##### Optional

- 4 1/2 Digit
- 1020
- 1099

##### Size of Container

Up to 24" dia.

##### On & Off Loading

Frequent Centered

### Model 2308™

Gas Cabinet Scale

Electronic scale with a 4-20mA output, NEMA 4X indicator and stainless steel base. Size 9" x 9", 12" x 12"  
Capacity to 349 lbs.

#### Indicators

##### Standard

3 1/2 Digit

##### Size of Container

Up to 12" dia.

##### On & Off Loading

Frequent

### Model 1020-B™

5 Digit Batching Controller V5

Scale indicator with a 4-20mA output. Designed for use in a batch-out process to dispense pre-determined amounts into a line or another container.

- Single channel indicator with ability to control two circuits for batching
- Accurately monitor feed rate, usage and inventory of process chemicals
- Intuitive 6 button control with LED display in pounds, kilograms, grams, gallons, liters or milliliters

### Rapid Alert Alarm™

for Spill Containment Basins

Sensor mounts in spill containment basin. The sensor utilizes a phototransistor to detect spills and activate a relay switch which triggers light to alert workers.

- Relay may also be used to trigger an audible alarm
- Readily integrated via PLC with other equipment facilitating automatic shutdowns, lockouts and other safety procedures
- Protects equipment and improves employee safety

### Model 4040-IBC-TT™

IBC Tote Tilter

Mounts on 4040-IBC platform scale. Allows operator to easily tilt the tote in order to dispense remaining chemicals from an Intermediate Bulk Container.

- Maximizes dispensing of IBC tote contents
- Maintains accuracy of weighing
- Reduces the chance of chemical spills
- Improves employee safety

**SCALETRON SETS THE STANDARD IN  
CORROSION RESISTANCE**

Complete Line of Scales for Water and Wastewater  
Treatment and Industrial Applications

[www.scaletronscales.com](http://www.scaletronscales.com)

# Scaleton scales are used in a wide variety of commercial, industrial, and government applications.

Scaleton Industries is the leader in corrosion resistant technology for scales used in harsh environments. We manufacture a complete line of electronic and mechanical scales and accessories designed for weighing and monitoring the usage, feed rate and inventory of corrosive chemicals and/or materials. Our scales are used in a broad range of applications and industries where reliability, accuracy and safety are paramount.

## **Wastewater & Sewage Treatment**

Weigh chemicals used to treat water, control odor and render effluent suitable for discharge. Typical chemicals include ammonia, carbon dioxide, chlorine, hydrogen chloride, polymers, and sulfur dioxide.

## **Municipal Water Treatment**

Weigh chemicals used to treat and clarify water for safe human consumption and food processing. Typical chemicals include ammonia, chlorine, fluoride, and sulfur dioxide.

## **Industrial Process Water & Wastewater Treatment**

Weigh chemicals used to treat water in industrial processes, cooling and waste treatment. Typical chemicals include ammonia, biocides, chlorine, fluoride, phosphates, polymers, and sulfur dioxide.

## **Municipal & Commercial Swimming Pools**

Weigh chemicals used to treat and clarify commercial and municipal pool water. Typical chemicals include acids, bleach, caustic soda, and chlorine.

### **Chemical Industry**

Weigh liquid chemicals and gases used in the chemical industry for manufacturing, health and safety and fire protection. Typical chemicals include ammonia, carbon dioxide, Freon, and liquid nitrogen.

### **Specialty Gas**

Weigh liquid chemicals and gases used in the specialty gas industry for manufacturing. Typical chemicals include ammonia, carbon dioxide, Freon, and liquid nitrogen.

### **Fire Protection**

Weigh liquid chemicals and gases used in the fire protection industry for fire, sprinkler and suppression systems.

### **Oil & Gas / Biofuels**

Weigh liquid chemicals and gases used in the oil and gas industry for the production of biofuels and petroleum products.

### **Semiconductor Manufacturing**

Weigh liquid chemicals and gases used in the semiconductor industry for the manufacturing of silicon wafers and chips.
